How does the trial period works?

The trial period, which lasts 5 days, give you access to our personal assistant solution :

- Julie (more than 1 user) or Violetta (1 user) plan :
 - The basic features for appointment scheduling (organization, cancellation and postponement

of appointment, update of the calendar),

- Weekly recap of your meetings
- The automatic follow-up: Julie will proactively suggest new availabilities if your contact

didn't reply to a previous suggestion.

• The circle of trust, to let Julie schedule a meeting without your approval, thus allowing her to

be more efficient and help you save even more time

- Adding all your Google, Office 365 and Exchange calendars to your account.
- Ask Julie to book your favorites restaurants, coffees or bars for the event she is scheduling for

you or not.

You don't have to download or install anything. Just need to give Julie access to your calendar, fill in the preference form. (name, surname, email, phone, company, function) and indicate your preferences :

- Days and times of appointments
- Duration of appointments
- Favorite places for appointments

The trial period is free, no banking information is required.

How do I set Julie up?

Nothing to download or install: When subscribing, you will be able to specify all you working habits: working hours, favorite places for lunch or coffee, your meetings default durations, potential free time between appointments, having calls in the morning calls rather than in the afternoon, etc. You can always change your preferences by sending an email to Julie.

Furthermore, you specify Julie many information to communicate to your contacts: office address, phone or confcall number, etc.

Can Julie handle different time zones?

Yes she can. When specified, Julie takes into account your contacts time zones to find the best availability. When traveling abroad, she will also consider your current location.

Can I use Julie with all my email addresses?

Yes. Just let Julie know all the email addresses you want to use to contact her.

Can Julie manage all my calendars?

Julie creates your events in the calendar of your choice and takes into account as many calendars as you want to compute your availabilities.

Can Julie use my own company domain name?

Of course. This feature is available if you are in **a paying plan (not during your free trial).** You can set Julie's domain name to: "julie@mycompany.com". That way, she will really become one of your coworkers ;)

And no, we can't change Julie's name to a boy's name. Why can't we do that? Because Julie is an artificial intelligence solution and therefore has a built in history that grows and learns every day via the name Julie.

However, Julie is accompanied by new collaborators, in particular Paul on the social networking side, who can help you! Contact us on hello@juliedesk.com
